

G20032 Mixeur Kit | HAND BLENDER WITH KIT

► DESCRIPTION

Professional hand blender MIXEUR KIT is equipped with a 600 watts power DC motor with electronic speed regulation and it is able to always guarantee the perfect rotation for each type of process: thanks to the practical speed selector, it is very easy to change from a slower to an intense fast speed without any interruption. Equipped with solid stainless steel removable blending shaft for easy cleaning, MIXEUR KIT features a special cutting set made of 4 blades (2 big blades and 2 small) that allows you to comfortably mix both hot and cold food in a very short time. Supplied with kit which includes an attachment whip and a fast interlocking transparent container with stainless steel blades, MIXEUR KIT integrates four functions in one unit: whisk, blend, mix and chop a wide variety of foods, proving on every occasion a valid and versatile help in your kitchen.
