

G20062 Linea | ELECTRONIC KITCHEN SCALE

► DESCRIPTION

Linea is an electronic kitchen scale with high-precision sensor with satin finishing and stainless steel-made bowl. With a maximum capacity of 5 kg with accuracy of 1 gram, Linea is able to guarantee high precision every time you add an ingredient; thanks to the tare function, it is possible to weigh solids, liquids, grains and vegetables using each time different containers. Equipped with automatic shut-off function after one minute of inactivity, Linea is also equipped with a backlit LCD large-sized display for an easy and immediate reading.
