

G20071 Sfera | ELECTRONIC KITCHEN SCALE

► DESCRIPTION

The digital kitchen scale Sfera with modern and functional design, is equipped with a transparent removable maxi bowl that makes it very easy portioning, measuring the liquid volumes and mixing the ingredients without dirtying the kitchen. Thanks to its excellent capacity of 5 kg with division of a gram, Sfera is able to virtually measure any type of ingredient with the highest precision and, once finished the operation, it will automatically turn off to preserve the battery life. Equipped with a large back-lit display with low battery and weighting error indicators, Sfera includes tare function for your convenience.
