

G20091 Girò | BLENDER

► DESCRIPTION

The blender Girò by G3 Ferrari is the result of the combination of strength and power with a new and modern look. Thanks to its 400 watt power, it is able to carry out all food preparation, such as blending, emulsifying, chopping and amalgamation. The refined design makes it particularly attractive and its capacity of 1.5 litres allows it to process a considerable quantity of product. The graduated glass is equipped with a lid with gasket to prevent spillage and to ensure the maximum safety during use. Thanks to its cutting block equipped with 6 blades, it is very easy and fast to crush the ice.
