

G10123 PAVONE | ELECTRIC KETTLE

► DESCRIPTION

The electric kettle Pavone model G10123 is safe and easy to use: thanks to its powerful rapid boiling system, it is able to provide a fast heating of the water and the automatic shutdown function ensures maximum safety at all times, inhibiting operation in the absence of liquids. Equipped with a 360-degree swivel base and cold handle, Pavone can be used wireless without the obstacle of the electric cable, making it very easy to use in the kitchen. Preparing the perfect cup of tea or any hot drink with Pavone is simple and fast: with excellent power, this unit can boil water faster than a microwave. Not only for the kitchen, Pavone can be used in office, supplied in hotel rooms and b&b to offer service to the customer who will be free to prepare drinks at any time. The concealed heating element makes it very easy to clean and the excellent capacity of 1700 ml offer the right solution for the whole family.
