

G10127 Naturdry | ESSICCATORE

► DESCRIPTION

Dehydration is excellent to naturally keep intact all vitamins and minerals, to enjoy your favorite food even out of season. Thanks to our food dehydrator Naturdry you can easily dehydrate not only fruit, vegetables, herbs and spices, but also mushrooms, meat and fish, thus preserving them for longer, without the use of additives and preservatives. The Naturdry system consists of five stackable and transparent trays made of BPA FREE plastic, which will allow you not to mix flavors and always keep under control the state of dehydration of the food. The powerful convection ensures constant airflow, and the adjustable temperature grants perfect results with any ingredient, without rotating the trays.
