

G20097 Artiko | ICE CUBES MAKER

► DESCRIPTION

Thanks to the last generation silent compressor and the ecological energy-efficient cooling system, the ice machine Artiko is a practical and economical solution for domestic use and for small restaurants, bars and catering services. Artiko is able to guarantee a production of 1400 ice-cubes in 24 hours and, thanks to the capacity of 700 grams of ice, there will be no need to empty the container or wait for your ice. Equipped with automatic shut-off function with empty water container or when the reservoir is full of ice, Artiko also offers the possibility to set the size of the cubes: small and large depending on the needs.
