

G90075 Dolce Estate 9000 |

► DESCRIPTION

The air conditioner model G90075 is the perfect solution for small and medium apartments, offices and rooms up to 60 m2 in size. Portable and easy to install, it offers immediate relief from excess heat and moisture: it provides cooling power of 9,000 BTU and the dehumidification function allows you to extract up to 24 litres of moisture in 24 hours in continuous mode. Equipped with flexible hose and window adapter, thanks to the 24-hour timer this unit can automatically shut down whenever you desire. Equipped with a remote control that can easily control speed, temperature, dehumidification and ventilation settings, the air conditioner G90075 features directional wheels that will allow you to move it from one room to another effortlessly. Energy efficiency class A and equipped with R290 Eco-Friendly refrigerant gas.
