

G20098 VORTICE | ICE CRUSHING BLENDER

► DESCRIPTION

Vortice is a blender which combines power with elegant and modern design. Thanks to the 1000W motor, it can make many operations: crush ice, mix, blend, chop. The capacity of 1,5 litres makes it work a big quantity of ingredients; the container is made of glass and the lid is equipped with a gasket to avoid splashes and grant safety during use. The 6 stainless steel blades also allow to crush ice cubes.
