

G20099 Mixatutto | FOOD PROCESSOR

► DESCRIPTION

Mixatutto is an innovative robot that helps you to save time with pre-cutting operations in the kitchen. The 3L bowl can contain small and large ingredients, allowing you to unleash your creativity while cooking your favorite recipes. The 1000W power combined with two processing speeds ensures excellent results in every occasion: Mixatutto is perfect for mixing, homogenizing and creating emulsions, its complete range of accessories is also ideal for blending, grinding and chopping meat or fish, grating bread and cheese, mashing potatoes or cutting vegetables into sticks or julienne strips. The accessories and the bowl are completely removable in order to make cleaning an easy thing!
